

Features and Benefits

UltraCUT 1MM cutting wheels deliver lightning fast, super smooth, clean cuts.

Thin cutting wheels deliver accurate, clean cuts.

Maximize cuts per wheel, reducing change-overs and cost of use.

Iscrizioni nelle università locali, 2005

Origine: Dati fittizi a solo scopo illustrativo

Best for use on thinner materials, angle profiles, thin sheets

Proprietary SOLID CORE technology increases density of the wheels, resulting in longer life, reduced friction, and superior stability.

Contaminant-free INOX provides a worry free solution for stainless steel.

Specifications

Application	Cutting
Arbor Hole Size Metric	22,23 mm
Brand	Metalynx Max
Commodity Code	6804 22 1000 - GRINDING WHLS BONDED SYN RESIN
Compatible Tool	Right Angle Grinder
Country of Origin	SLOVENIA
Diameter Metric	125 mm
EAN Code	3838529884798
Grade/Hardness	UC20A60R-BF INOX
Grain Type	Premium
Grit	60

Industry	Fabrication
Material Application	Stainless Steel, Steel
Maximum RPM	12250
Sales Unit of Measure	Each/Pieces
Standard Pack Quantity	25
Wheel Type	F41
